Kensington®

VeriMark[™] Desktop Setup Guide

Kensington takes pride in making our comprehensive installation guides easy to follow with simple illustrations and step-by-step instructions. This guide will walk you through setup and help you get to know your VeriMark™ Desktop.

Please update operating system (Windows 10) before setting up Verimark™ Desktop. If using an online service for WebAuthn make sure you use the latest browser version (Edge, Chrome, Safari and Firefox.)

VeriMark[™] Desktop Dropbox Setup Guide

Note: Please follow Windows 10 Verimark Guard Setup before continuing with Dropbox configuration to enable biometric authentication. If not configured with Windows the key will behave as a Security Key with **Tap and Go**.

1. Login to dropbox using e-mail and password and then click on settings on the top right corner

 ⊘
Key added!
You can now use your security key to complete two-step verification when you sign into Dropbox.
If you'd like, you can also set a nickname for this security key, so that it's easier to tell apart from any other key you have.
