Kensington®

VeriMark™ Desktop Setup Guide

Kensington takes pride in making our comprehensive installation guides easy to follow with simple illustrations and step-by-step instructions. This guide will walk you through setup and help you get to know your VeriMark™ Desktop.

Please update operating system (Windows 10) before setting up Verimark[™] Desktop. If using an online service for WebAuthn make sure you use the latest browser version (Edge, Chrome, Safari and Firefox.)

VeriMark[™] Desktop Login.gov Setup Guide

- 1. Select Login.Gov icon to sign-in your account
- 2. Key in your email address and password then click Sign in

UOGIN.GOV		
Sign in

TWO-FACTOR AUTHENTICATIO	ON D	
Phone numbers		+ Add phone
	default	Manage
Authentication apps		+ Add
Login.gov		Delete
Security key		+ Add security key
PIV CAC Cards		+ Add

- **4.** Insert your security key to PC
- 5. Setup your security key nickname , then click **Continue**

Add your security key
Add a security key as an authentication method to your account. Your security key must support the FIDO standard. You can add as many security keys as you want, and we recommend at least two for easier account recovery.
