# Kensington®

## VeriMark™ Desktop Setup Guide

Kensington takes pride in making our comprehensive installation guides easy to follow with simple illustrations and step-by-step instructions. This guide will walk you through setup and help you get to know your VeriMark™ Desktop.

Please update operating system (Windows 10) before setting up Verimark<sup>™</sup> Desktop. If using an online service for WebAuthn make sure you use the latest browser version (Edge, Chrome, Safari and Firefox.)

## 7. Select Security icon

8. Click More security options icon

More security options Try the latest security options to help keep your account safe.	
	More security options

9. Select Set up Windows Hello item

**10.** Insert your fingerprint device into PC then select **Next** button

**11.** Touch your security key with your enrolled finger

**12.** Setup the name of your fingerprint device, then click **Next** 

Use Windows Hello to sign in to your account
Name your sign-in method
Hint: Name it based on your device so you'll know later which device this was on.
Example: "Personal Surface Book
Next

**13.** Fingerprint device setup has completed, click **Got it** button

You're all set!
Next time you sign in, you can use Hello instead of your password to sign in.
Got it
Set up a security key

## How to Remove Security Key from Your Account

1. Sign in your Microsoft account

#### 2. Select Security icon

3. Click More security options icon

More security options
Try the latest security options to help keep your account safe.
<ol> <li>Click Manage your sign-in methods item</li> </ol>

Windows Hello and security keys	
Now you can sign in without a password using Windows Hello or security keys. A security key is a physical device (like a USB security key) that you can use to sign in to your account instead of a password. Learn more about signing in with Windows Hello or a security key.	
Set up a security key	
Set up Windows Hello	
Manage your sign-in methods	

### 5. Select **Remove** button

Manage	your sign-in method	S		
NAME	SIGN-IN METHODS	ADDED ON	LAST USED	
Gen1	On-device key	10/5/2020 6:54 AM	10/5/2020 6:54 AM	Remove

#### 6. Click **Remove** button

Remove Windows Hello?				
If you remove this, you won't be able to use it to sign in your account.
