

Experience Kensington's Professional Audio Solutions

The key to getting more work done.

Spend more time hearing and being heard with Kensington's Professional Audio Solutions.

Hear and Be Heard

Communicating, collaborating, and concentrating starts with the best headset—wired or wireless, with noise-cancelling technology, in-line controls, comfortable earcups, rotatable microphones, impressive durability, and excellent sound quality.

①

H3000 Bluetooth Over-Ear Headset

The H3000 delivers an immersive and focused experience. With the wireless freedom to roam, cooling-gel infused memory foam earpads, and AI-powered environmental noise-canceling technology.

K83452WW

②

H2000 USB-C Over-Ear Headset

The universal plug & play H2000 delivers exceptional sound technology, and premium productivity features via an ergonomic over-ear design.

K83451WW

H1000 USB-C On-Ear Headset

The H1000 provides a seamless plug & play experience while delivering premium productivity, comfort, and durability for an advanced audio experience.

Audio Solutions

In a world where being heard is everything, Kensington knows that smooth audio transitions start with the best switch—with easy-to-use controls for changing, adapting, or muting signals.

Used in combination with a professional headset, a switch elevates your audio experience by providing seamless transitions between devices—and ensuring you are always heard.

③

Universal 3-in-1 Pro Audio Headset Switch

Use your favorite wired or wireless headset (Bluetooth, USB-C, USB-A, or 3.5mm) as you switch between up to three different devices (laptops, phones, and tablets). Automatically remembers previously paired devices, eliminates the need for multiple headsets, and works with Microsoft Teams, Google Meet, Zoom, WebEx, and more.
