Experience Kensington's Professional Video Conferencing Solution

The Key to Getting More Work Done

Spend more time presenting and less time troubleshooting with the complete Kensington Professional Video Conferencing experience.

①

W2050 Pro 1080p Auto Focus Webcam

The W2050 elevates today's video conferencing applications with 1080p video, automatic video enhancements, and stereo sound. The wide 93° diagonal field of view provides the flexibility for single or multi-user presentations.
