## Kensington

## KensingtonWorks™

for Windows	
12/13/2019	
2.1.08	Add ProFit Ergo Wired Mouse
	Add localisation strings for "Scroll Right" and "Scroll Left"
	Fix the localisation issue to detect from system locale
	Fix key chording bound for "Scroll Right" and "Scroll Left"
	Increase font size
	Fix "Minimise All" issue
1/8/2020	
2.1.10	Fix issue where Helper can't be resumed when removed from startup menu
	Fix issue where Helper quits during uninstall process, before user's confirmation
	Fix single axis malfunction when using same modifier key with slow pointer
	Fix white that appears when changing resolution
	Fix UI partition that is incorrect under low resolution with 125% text size
	Add localisation to the KensingtonWorks driver download balloon message
	Add Ergo Vertical Wireless Mouse
	Update the image of the Ergo Wired Mouse
	Update Tutor images
1/9/2020	
2.1.11	Update Win 7 BLE device hardware IDs and Win 7 driver
2/24/2020	
2.1.13	Driver update: Add Bluetooth 3.0 HIDs for new dual-mode trackball/mouse
	Fix issue where erasing the cache file "Settings" will lose the bind to cloud record
	Fix Google Cloud login issue when user selects "Bind to Cloud"
2/25/2020	
2.1.14	Feature change: Define "Second Drag Action" as "Drag Release"
	Change backup restore success message icon
3/20/2020	
2.1.15	Add Track Scroll feature
	Remove TAU (test automation) commands "emulateButtonClick" and "emulateButtonPress"
	from release build, due to security concerns

	Update translation json files for "ja" & "zh-TW". (Japan and Traditional Chinese)

6/5/2020	
, ,	

2.1.18	Add navigation feature – "Auto Scroll"
	i. Click button to enable "Auto Scroll"
	ii. Click any button to disable "Auto Scroll"
	iii. Two scroll directions: horizontal and vertical
	iv. Move trackball to start "Auto Scroll" for 15 seconds (countdown starts from last movement of trackball);
	v. During "Auto Scroll", slight/short"movement of the trackball will hold "Auto Scroll"
	vi. During "Auto Scroll", normal movement of the trackball will change the direction of "Auto Scroll"
	vii. Limitation: for application-specific setting of "Auto Scroll", "Track Scroll" can't be disable by switching to another application until a trackball button is clicked
	Change UI flow:
	i. When launching KensingtonWorks, go to the configure trackball page directly if a single trackball is connected
	ii. Go to the configure trackball page when a new trackball is plugged in
9/15/2020	
2.1.19	Add Orbit Fusion Trackball support
	Fix "Media control shortcut" bug of ver.2.1.18
10/31/2020	
2.2.2	1. Improve the button event handling algorithm.
	2. Fix issue Navigation "HOME" "PAGE UP" malfunctioned
	3. Fix issue Left key and right key can't be released after pressing simultaneously
	4. Fix issue It takes two clicks to get the Left Drag to stick
	5. Fix issue A combination of simultaneously pressed left and right trackball keys. Normally this simulates a middle mouse click, however it is often interpreted as a drag and drop operation.
	6. Fix issue Redefine the behaviour of Double / Triple click to be the same as the one of TrackballWorks
12/18/2020	
2.2.5	1. Added left-handed Ergo Wireless Mouse support.
	2. Fixed the bug that in critical timing of button debouncing period, a button up event may be missed.
2/19/2021	
2.2.7	1. Now supports the Pro Fit® Ergo Vertical Wired Trackball
	2. Replace the communication method of 'http server' by 'shared memory' for a security concern.
	3. Supports the "Tilt" button repeat feature.
	4. Enhanced the click response time of the driver to accept fast click and fast double click
4/30/2021	
2.2.10	1. Non-English usernames were not saving button settings.
	2. Fix left button stuck issue which allows users to swap left and right buttons and assign combination keys.
7/20/2021	
2.2.11	3 chording functions to understand:
2.2.11	I. If the chording function is not activated, the individual buttons will work as normal.
	2. The function assigned to the chording will continue until both the combo keys are released.
	3. Functions of the assigned chording keys will continue even when the user presses another key or when using another feature on the mouse.
