Feature change: define “second drag action” as “drag release”.

Change backup restore success message icon

3/20/2020

Version 2.1.15

Add feature: Track Scroll.

Remove TAU (test automation) commands “emulateButtonClick” & “emulateButtonPress” from release build for security concern.

4/9/2020

Version 2.1.16

Update “Copyright © 2020 ACCO Brands LLC.”

Add shortcut supported keys: backspace, arrowdown, arrowup.

Fix Single axis and slow pointer can't work normal when set different modifier key

5/15/2020

Version 2.1.17

Fix post keystroke bug for “Pro Tools”
Update translation json files for “ja” & “zh-TW”. (Japan & Traditional Chinese)

6/5/2020

Version 2.1.18

Add navigation feature - Auto Scroll.

- i. Click button to enable “Auto Scroll”;
- ii. Click any button to disable “Auto Scroll”;
- iii. Two scroll directions: horizontal and vertical.
- iv. Moving trackball to start “Auto Scroll” for 15 seconds (count down from the end of the moving of the trackball);
- v. During auto scrolling, “slightly/shortly” moving the trackball to change the direction will hold auto scroll;
- vi. During auto scrolling, normal moving the trackball to change the direction will change the direction of Auto scroll;
- vii. Limitation: for application specific setting for “Auto Scroll”, “Track Scroll” can’t be disabled by switch to another application until some button of the trackball is clicked.

Change UI flow:

- i. When launch KensingtonWorks, go to the trackball configure page directly if only single trackball is connected.
- ii. Go to the trackball configure page when a new trackball is plugged in.

9/15/2020

Version 2.1.19

Add Orbit Fusion Trackball support
Fix “Media control shortcut” bug of ver.2.1.18

10/31/2020

Version 2.2.2

1. Improve the button event handling algorithm.
2. Fix issue Navigation “HOME” “PAGE UP” malfunctioned
3. Fix issue Left key and right key can’t be released after pressing simultaneously
4. Fix issue It takes two clicks to get the Left Drag to stick
5. Fix issue A combination of simultaneously pressed left and right trackball key. Normally this simulates a middle mouse click, but it’s often interpreted as a drag and drop operation.
6. Fix issue Redefine the behavior of Double/Triple click to be the same as the one of TrackballWorks.

12/18/2020

Version 2.2.5

1. Add Left-Handed Ergo Wireless Mouse support.
2. Fix the bug that in critical timing of button debouncing period, a button up event may be missed.
