Kensington®

VeriMark[™] Setup Guide

Kensington takes pride in making our comprehensive installation guides easy to follow with simple illustrations and step-by-step instructions. This guide will walk you through setup and help you get to know your VeriMark[™].

Please update operating system (Windows 10) before setting up Verimark. If using an online service for WebAuthn make sure you use the latest browser version (Edge, Chrome, Safari and Firefox.)

VeriMark[™] Google Advanced Protection Program Setup Guide

1. Select Next to enroll in Google's strongest account security

2. Prepare 2 security keys then select Register security keys

Get security keys

3. Select Add main key in Advanced Protection webpage

Ð	Add main key Bluetooth key recommended
÷	Add backup key
	Can use a USB or Bluetooth key
To pr with	otect your account, you must register 2 security keys. Bluetooth keys work computers, Android, and iOS devices. USB keys work with computers and

5. Insert your security key then select **OK** for Chrome sign in confirmation

6. Touch your security key
