

## VeriMark™ Guard Setup Guide

Kensington takes pride in making our comprehensive installation guides easy to follow with simple illustrations and step-by-step instructions. This guide will walk you through setup and help you get to know your VeriMark™ Guard.

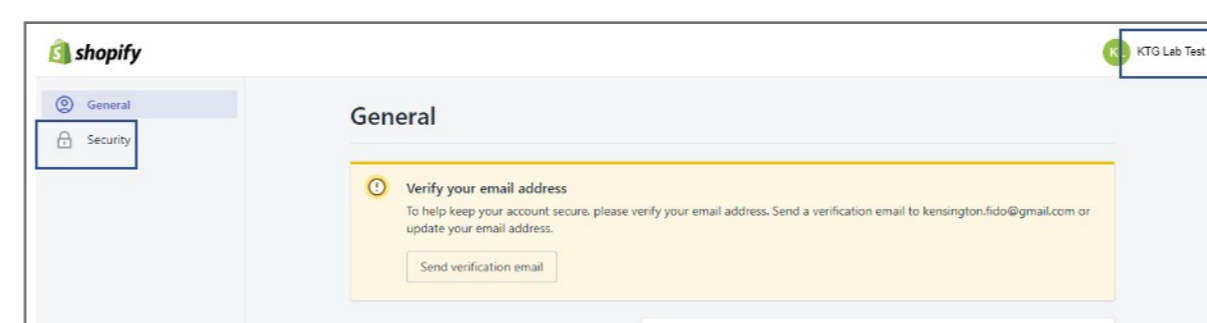

Please update operating system (Windows 10, Chrome OS and macOS) before setting up Verimark™. If using an online service for WebAuthn make sure you use the latest browser version for (Edge, Chrome, Safari and Firefox.)

### VeriMark™ Guard Shopify Setup Guide for macOS

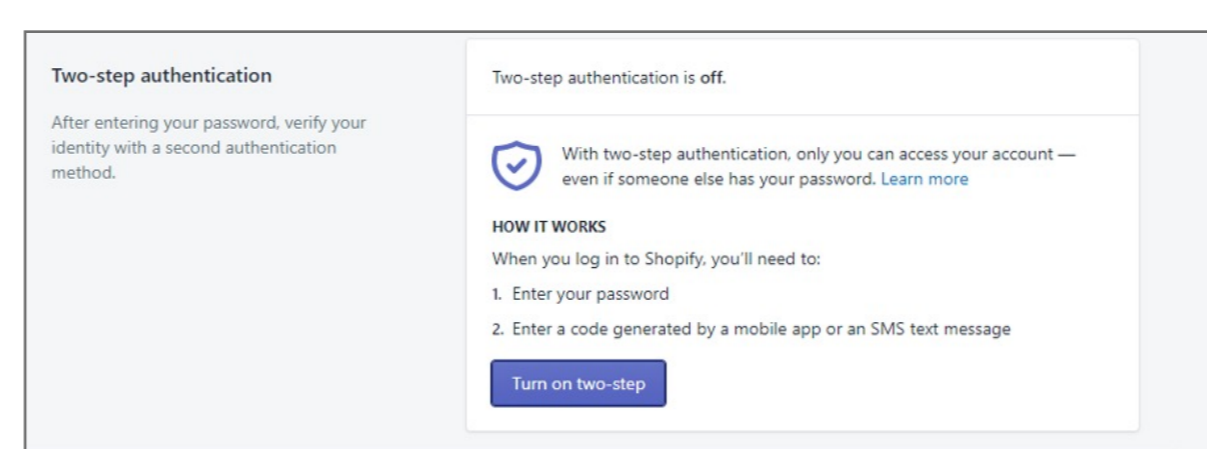

1. From your Shopify admin, **click** your username and account picture

2. Do one of the following:
- Click **Your account > Security**
  - Click **Your profile**

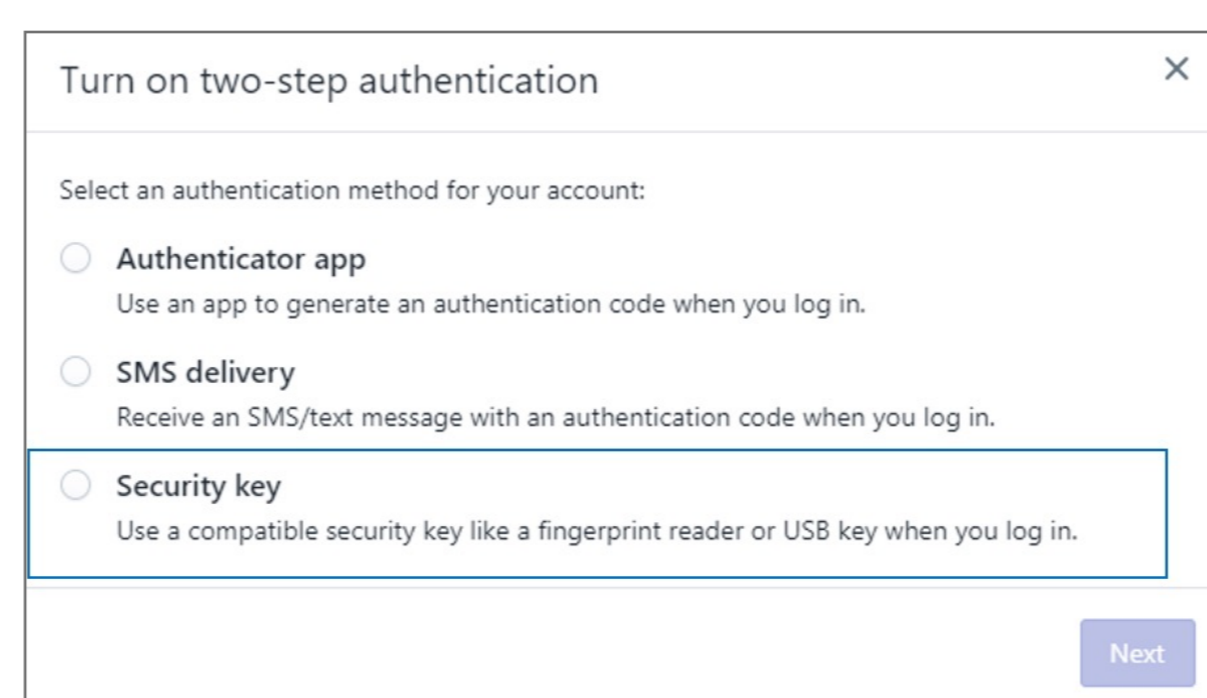

**Note:** If you haven't set up a single login, then you'll see **Your profile** instead of **Your account**

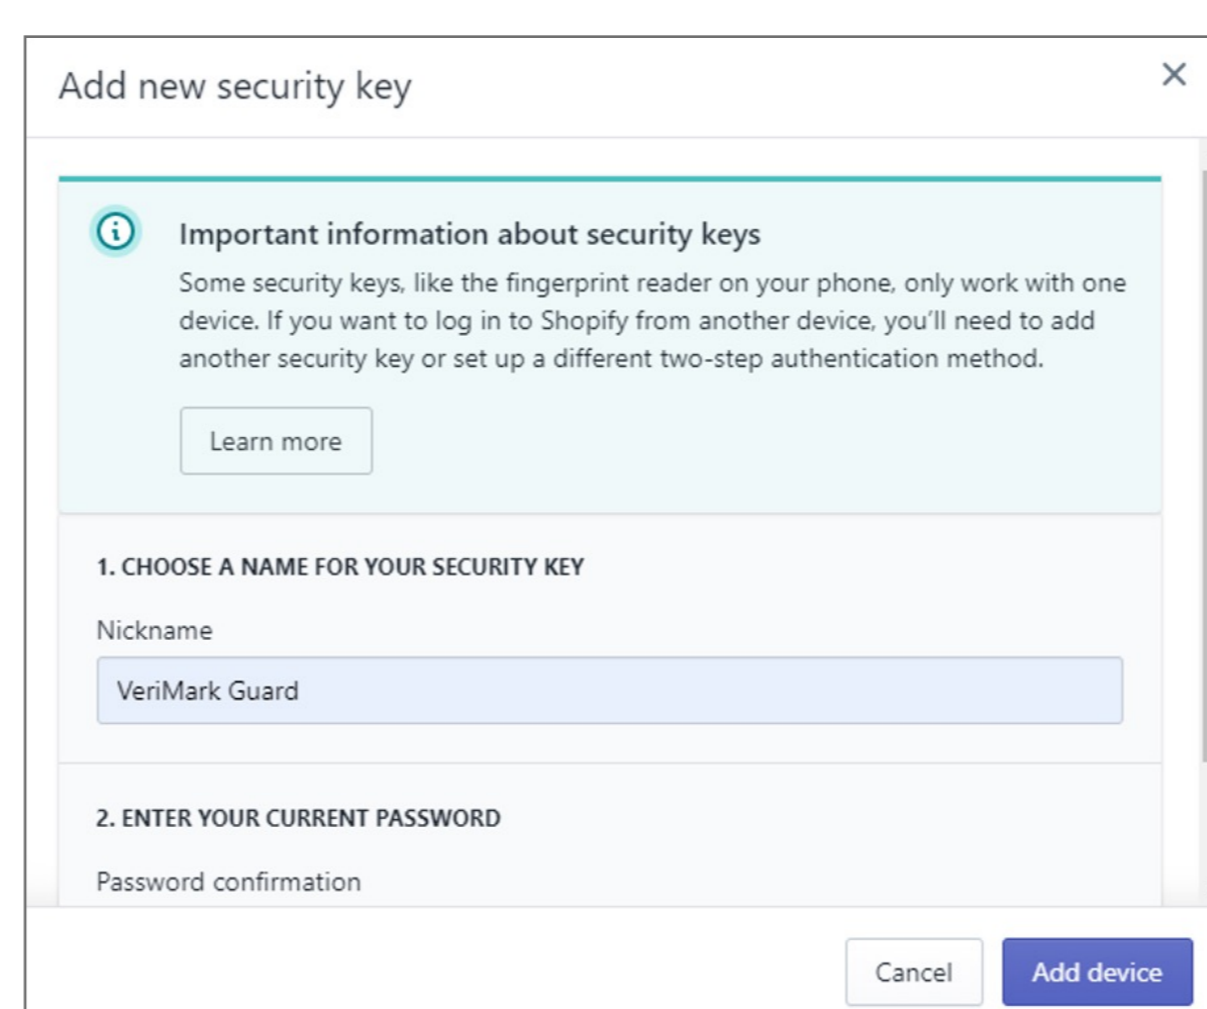

3. In the **Two-step authentication** section, click **Enroll a new device**

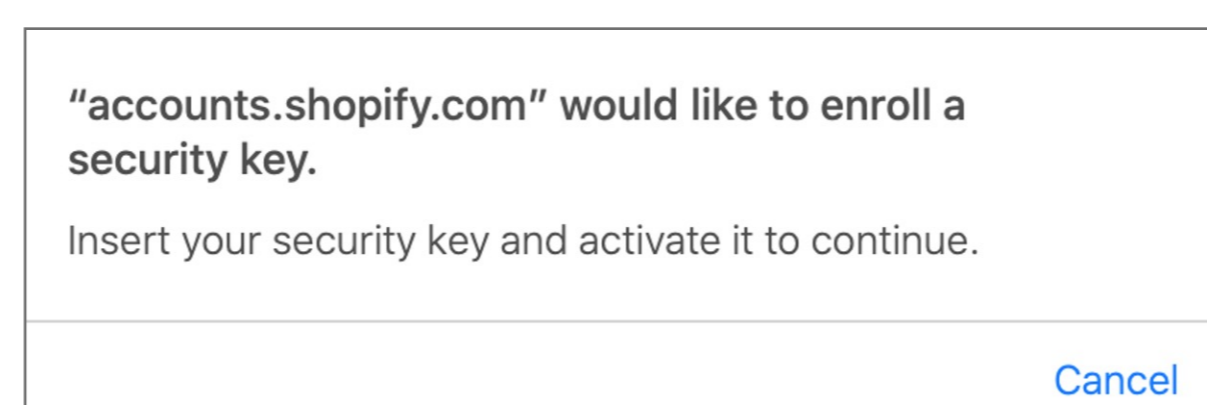

4. **Select Security Key**

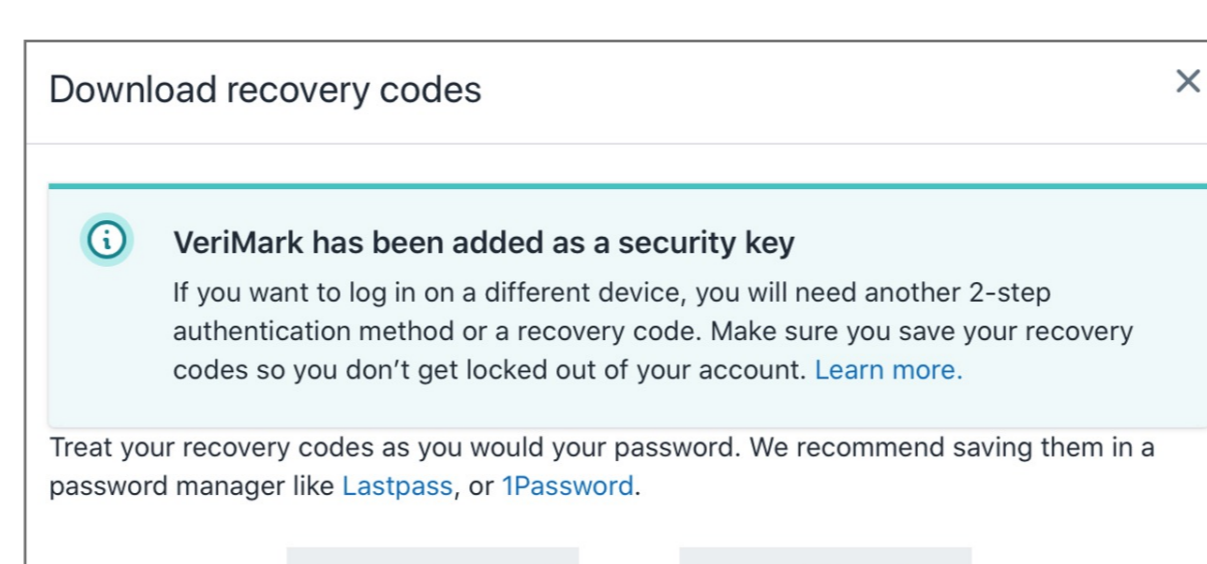

5. In the fields provided, **enter** a nickname for the device to enroll and your account password

6. **Insert** the security key and touch

7. **Activate** your security key. You are provided with a list of 10 recovery codes

8. **Write down** your recovery codes and keep them in a safe place. If you don't have access to your security key, then using a recovery code is the only way to log in to an account that has two-step authentication enabled.

9. You are all set
