14" **K58370WW**
16" **K58371WW**

SECURITY SLOT ADAPTER KIT FOR LAPTOP

The Kensington Security Slot Adapter securely attaches to your MacBook and other peripheral devices that do not have a built-in security slot.

K64995WW

Multiple Display Support

Utilizing a DisplayLink® dock with a MacBook, especially for users with M1, M2, or M3 chipset MacBooks, presents a significant advantage in expanding display capabilities. While the native hardware may restrict users to connecting only one external monitor with M1, M2, or M3 chipsets and two external monitors with M1 Pro, M1 Max, M2 Pro, M2 Max, or M3 Pro, M3 Max chipset support by a Thunderbolt™ 4 dock, DisplayLink® technology enables the connection of multiple displays through a single USB port, overcoming this limitation and providing a practical solution for Mac users requiring two external monitors (SD4782P) or even three external monitors (SD4790P), regardless of which MacBook chipset they have. This flexibility is highlighted further by DisplayLink® driver's capability to seamlessly mix and match displays of varying resolutions or types, offering Mac users enhanced compatibility and adaptability for diverse display setups.

SD4790-MAC EQ USB-C® Triple 4K Docking Station for MacBook

Kensington®

Ideal for Mac professionals seeking a single docking solution that can support up to four external Ultra HD monitors, while also catering to mixed technology environments, the SD4790P USB-C® and USB-A 10Gbps Quad 4K Hybrid Dock supports the latest USB-C® and legacy USB-A* laptops with video, data, and power. Designed for Apple, ensuring compatibility with MacBook M1/M2/M3 Pro and Max.

Features

TRIPLE 4K VIDEO VIA HDMI® AND DP++ FOR MACBOOK

Supports any M1/M2/M3 MacBook Air or MacBook Pro model with up to Triple 4K @ 60Hz via DisplayLink®. Six video ports allow for the selection between HDMI® 2.0, DP++ 1.4, and DP++ 1.2, eliminating the need for cumbersome adapters.

DESIGNED FOR APPLE, ENSURING COMPATIBILITY WITH MACBOOK

Optimized to support MacBooks, running macOS 11 or above, while also being compatible with Windows 10 or above and Chrome OS 114 or above. Also compatible with M1, M2 base, Pro, and Max chipsets.

UP TO 100W POWER DELIVERY FOR MACBOOK

Deliver power to your laptop while charging your connected apple devices. Supports up to 100W for your M1/M2/M3 MacBooks and can also charge your Apple devices, such as AirPods, iPhone, and Apple Watch, via the front USB-C® port with Battery Charging 1.2.

6 USB PORTS, GIGABIT ETHERNET, AND COMBO AUDIO JACK

Delivers speeds up to 10Gbps via 2 USB-C® ports and 4 USB-A ports. Front: 2 x USB-C 3.2 Gen2 10Gbps (one 5V/1.5A and one 5V/0.9A). Back: 4 x USB-A 3.2 Gen1 5Gbps (5V/0.9A). Includes 1Gbps Ethernet port and combo audio jack.

FREE KENSINGTON DOCKWORKS™ SOFTWARE & 3-YEAR LIMITED WARRANTY

Free DockWorks™ software delivers the best connection, performance, and security from your Kensington dock. Enjoy peace of mind knowing your covered by Kensington with a professional warranty.
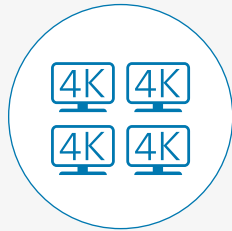

NEW

SD5900T EQ Thunderbolt™ 4 Quad 4K 40Gbps Docking Station

Kensington®

Ideal for Mac professionals seeking a single docking solution that can support up to four external Ultra HD monitors, while also catering to mixed technology environments, the SD5900T USB-C® and USB-A 10Gbps Quad 4K Hybrid Dock supports the latest USB-C® and legacy USB-A* laptops with video, data, and power. Designed for Apple, ensuring compatibility with MacBook M1/M2/M3 Pro and Max.

Features

UP TO QUAD 4K VIDEO VIA HDMI®, DP++, AND THUNDERBOLT™ FOR MACBOOK

Choose between 2 x TBT and 1 x DP ports for plug-and-play video. Add 2 x HDMI®/DP options with a quick DisplayLink® download. Supports up to quad 4K @ 60Hz for MacBook M1/M2/M3 with Pro and Max chipsets (and M3 base chipset with laptop lid closed). Also supports up to triple 4K @ 60Hz for base M1/M2 chipsets.

DESIGNED FOR MACBOOK

Delivers the power of Thunderbolt™ 4, mirrors the midnight blue aesthetic of the latest MacBook models, and is optimized for MacBooks with M1, M2, and M3 chipsets running macOS (11 or later).
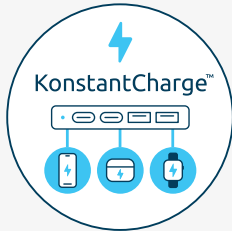

UP TO 100W CHARGING (96W CERTIFIED)

Power your MacBook while also charging your connected accessories, including iPhones, AirPods, and Applewatches. Includes KonstantCharge™, enabling connected devices to charge even when your MacBook is undocked.

THUNDERBOLT™ 4 HYBRID TECHNOLOGY

Combines Thunderbolt™ with DisplayLink® technology to provide next-level productivity experiences. Transfers up to 40Gbps of data, video, and audio. Provides daisy chain support for SSDs, monitors, and other Thunderbolt™ devices. Blocks peripheral devices from unauthorized access to system memory using Intel VT-d DMA protection.

KONSTANTCHARGE™

Up to 100W Charging (96W certified) Power your MacBook while also charging your connected accessories, including iPhones, AirPods, and Apple watches. Includes KonstantCharge™, enabling connected devices to charge even when your MacBook is undocked.
